up to Phisburgh yesterday morning for the purpose of playing with the Pitts-burgh leaguers in the afternoon. The elements, however, were in an unkind mood and as a consequence the grounds were in such a bad condition that it was impossible to play. This afternoon a game will be played with the Pirates and Coyle's boys expect to make it quite in-teresting for their opponents. Campbell will probably pitch for the Wheelings and Hughey or Tannehill will do the pitching for the big leaguers.

From the large number of guesses be ing made with the intelligencer, for the opening day's attendance figures, it is evident that there is great interest in base ball here this spring.

The Wheeling team will return this evening and after resting over Sunday will go to Zanesville, where three exhibition games with the Zanesville team of the Ohio-West Virginia league, will be played. Then the same teams return to Wheeling for three games the latter half of the week.

Wonder where Frank is. He's the South Carolina boy who wan so adxlous to pay his fare to Wheeling so that he could have a trial with the local team. But that was in March and the condition of his April pocketbook must have been deplorable, for he hasn't been heard from.

NEW CASTLE, Pr., April 16-The Buffalo team of the Eastern league had an easy victory over the local Inter-state team this afternoon. The day was cold, and part of the time rain was fall-ing. Gill and Urquhart each had home runs. Score:

River Telegrass.

PITTSBURGH, April 16.—The Obio river has reached a coalboat stage, but no towboats had been sent out up until noon, but several were getting ready to depart with tows. The indications are that the river will remain at a high stage for several days to come, as the weather conditions favor additional rains. All the towboats which left here this week have reached Cincinnati and some of them are on the way up from there and Louisville. The last of the fleet is due at the latter place some time during the day. The boats will bring back many empties for the miners to reload, and times in the valley should be good for the next month or so.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour, But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarraparilla.

The Barnard brick plant was appraised yesterday by Messrs. George W. Yost, A. T. Stewart and R. A. McGregor. The plant and appurtenances were appraised at \$35,090, and the personal property at \$3,925, a total of \$33,-925. The plant with all the improvements made is appraised at exactly the same as it was when sold as a part of the Barnard estate, which would appear to be quite low enough, since from \$15,090 to \$20,000 was spent in improvements.

Deafness Cannet be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflammated condition of the mucous surfaces.

one of the most thrilling scenes in grand opera. It never fails to awaken

grand opera. It never falls to awaken the enthusiasm of an audience.

The early life of Signor De Pasquali was devoted to civil engineering, but his wooderful voice soon actracted attention, and he decided to make municing profession. For seven years he studied under the great master, Bertini, at the Royal Conservatory, Palermo, where for four successive years he won the highest honors. He made his debut at the Boyal Belini Theatrie in Palermo, with the celebrated Lamirsux, and scored an immediate success. His first appearance in this country was with the Damrosch Symphony Orchestra in New York City, since which he has been heard in opera and concerts with such organizations as the Hinrichs and Tayary Grand Opera Companies, Schirmer-Mapleson Company and others, Hymn No. 762, 7:30 P.
